

**LAW OF OCTOBER 14, 2020 No. 1351**  
**MONICA EVA CUP MURGA**  
**PRESIDENT OF THE PLURINATIONAL LEGISLATIVE ASSEMBLY**

Inasmuch as, the Plurinational Legislative Assembly has enacted the following Law:

**THE PLURINATIONAL LEGISLATIVE ASSEMBLY**

**DECREE:**

**LAW REGULATING THE PREPARATION, COMMERCIALIZATION,  
SUPPLY AND CONSENTED USE OF CHLORINE DIOXIDE SOLUTION  
(CDS) AS A PREVENTIVE AND TREATMENT FOR THE CORONAVIRUS  
PANDEMIC (COVID-19)**

**ARTICLE 1. (PURPOSE).** The purpose of this Law is to exceptionally regulate the elaboration, commercialization, supply, administration and consented use of Chlorine Dioxide Solution, in a preventive manner and as a treatment for patients diagnosed with Coronavirus (COVID-19).

**ARTICLE 2. (DEFINITIONS).** For the purposes of the application of this Law, it is understood by:

- a) Chlorine Dioxide Solution (CDS). Chlorine Dioxide ( $\text{ClO}_2$ ) is a gaseous chemical compound as a result of the mixture of the precursors Sodium Chlorite ( $\text{NaClO}_2$ ) activated with Hydrochloric Acid ( $\text{HCl}$ ), Citric Acid ( $\text{C}_6\text{H}_8\text{O}_7$ ) or electrolysis.
- b) Chemical Precursor. It is an essential or necessary substance to produce another by means of the chemical compounds that constitute a first stage in a chemical process which acts as a substrate in the later stages.
- c) Prospectus. Document that includes the main characteristics of a compound, such as composition, indications, dosage, precautions and in general all the necessary information to make correct use of it.
- d) Dose. The effective amount of active ingredient of a compound, expressed in units of volume or weight per unit of intake depending on the presentation, that is administered to produce a pharmacological action or effect.

**ARTICLE 3. (PREPARATION).** Public or private laboratories, accredited and authorized by the competent governing body, may elaborate Chlorine Dioxide Solution, and they must comply with the quality conditions and include the final product prospectus that prove the composition, dosage, precautions and care when consuming this compound.

**ARTICLE 4. (COMMERCIALIZATION OF CHLORINE DIOXIDE SOLUTION).** Commercialization of Chlorine Dioxide Solution, must be carried out with indications of use and details of its dosage by:

- a) Laboratories or universities, to the government of the central level, departmental governments, municipal governments, pharmacies and legally established clinics.
- b) Pharmacies legally established, without the need for a medical prescription and with the full agreement of the buyer.

**ARTICLE 5. (SUPPLY).** The autonomous departmental and municipal governments must guarantee the supply in the public health sub-sector of Chlorine Dioxide Solution, as a consented alternative method for the treatment of Coronavirus (COVID-19).

**ARTICLE 6. (ADMINISTRATION).** Medical professionals may administer the Chlorine Dioxide Solution, with the informed consent of the patient or a family member, in accordance with the stipulated protocols.

**ARTICLE 7. (USE).** The citizens, residents and inhabitants of the Bolivian territory, may use Chlorine Dioxide Solution as an alternative method to prevent or treat the infection and consequences caused by the Coronavirus (COVID-19).

**ARTICLE 8. (COMMUNICATION AND DISSEMINATION).** Executive Body of the central state level, in coordination with the Autonomous Territorial Entities, are responsible for carrying out dissemination campaigns on the consented, responsible, adequate and informed use of Chlorine Dioxide Solution.

**ARTICLE 9. (EXCEPTIONAL TARIFF SYSTEM).** For the duration of the Coronavirus pandemic (COVID-19), the payment of customs duties is released on the importation of Sodium Chlorite (NaClO<sub>2</sub>), as a precursor of Chlorine Dioxide Solution.

**ARTICLE 10. (RESPONSIBILITIES).**

**I.** The following responsibilities are determined:

1. The central level of the State, through the Ministry of Health, will be responsible for:

a) Supervise the elaboration and commercialization of Chlorine Dioxide Solution for preventive or alternative therapeutic use for the treatment of Coronavirus (COVID-19).

b) Carry out responsible and adequate information campaigns on the consented and responsible use of Chlorine Dioxide Solution.

2. The autonomous departmental and municipal governments, within the framework of their powers, will be responsible for:

a) Carrying out information campaigns on the use of the responsible and appropriate Chlorine Dioxide Solution.

b) Acquire Chlorine Dioxide Solution from certified and authorized universities or public and private laboratories.

c) Provide free Chlorine Dioxide Solution to health establishments as a means of prevention and alternative treatment of Coronavirus (COVID-19).

**II.** The autonomous departmental and municipal governments may sign agreements with the universities of the Bolivian University System, for the acquisition of the Chlorine Dioxide Solution, in order to promote, in this way, research in Higher Education Institutions.

**ARTICLE 11. (FINANCING).** The Executive Branch of the central level of the State and the autonomous territorial entities, according to their attributions and powers, must consider the following sources of financing for free distribution:

a) Resources within the framework of Law No. 602 of November 14, 2014, on Risk Management.

b) External and internal credits and donations, related to the Coronavirus pandemic (COVID-19).

## TRANSITIONAL PROVISION

**UNIQUE.** This Law will be regulated by the Executive Branch, through Supreme Decree, within a period of five (5) business days, computable as of its publication date in the Official Gazette of Bolivia.

Refer to the Executive Branch for constitutional purposes.

It is given in the Hall of Sessions of the Plurinational Legislative Assembly, on the fifth day of the month of August of the year two thousand twenty.

Sen. Leónidas Milton Barón Hidalgo
